

THREE TIPS

TO KEEP YOUR

WORKPLACE SAFE

Address security throughout your organization.

Implement security measures that protect all employees and locations.

Review organizational security policies and safety protocols with all levels of staff.

Make safety and security a shared responsibility amongst your team.

Get set up with the right systems and equipment.

Test existing security equipment to make sure it's up-to-date and works properly.

Identify gaps in existing infrastructure, then seek solutions to negate potential risks.

Bring in necessary equipment and experts to set yourself up for long-term success.

Make safety and security top priorities.

Determine the different levels of security that are important to consider and strategize for.

Acknowledge both cyber and physical security threats and vulnerabilities.

Conduct regular assessments of your evolving security needs.
